DECO STEEL

PASLANMAZ D KORASYON  ELİĐİ

DECOSTEEL DEKORATİF PASLANMAZ  ELİK

DECOSTEEL paslanmaz dekorasyon  eliĐi  aĐımız mimarların yaratıcı fikirlerine ilham kaynaĐı olan bir malzemedir.  eliĐin dayanıklılıĐın desen ve renk se enleriyle birleştiren DECOSTEEL estetik, kaliteli ve güvenli   z mler i in aranan malzeme olma  ezelliĐi ile  n plana  ıkmaktadır. Projeye  zel yaratılan, ikinci bir  rneĐi bulunmayan desen  eştirilik saĐlar. Desen alternatiflerini sadece tasarımcının hayal g c  ile sınırlıdır.

TEKNİK  ZELLİKLER

KALİTELER:

JAPAN SUS 304 - 316 veya istenilen kalitelerde  retilir.

 R N SE ENEKLERİ:

AYNA PASLANMAZ
MAT G R N ML  MALZEMELER
AYNA PASLANMAZ DESEN 

RENKLER:

ALTIN, G M Ő , BRONZ, BAKIR, G L ALTIN, KOYU GR , MOR KAHVERENG , SIYAH, SARI, KOYU MAV .

B T Ő LER:

PARLAK, MAT, DESEN L ,    Y NL 
 ZEL TASARIM:

Stoklarımızdaki d z ve desenli farklı modeller arasından se ilebilmesinin yanı sıra projeye  zel desen  retmek m mk nd r. Tasarlanan  zel desenlerin farklı renklerdeki paslanmaz  elik plakalar  zerinde uygulanabilmesi tasarımcıya sınırsız  eştirilik saĐlar. Desen alternatiflerini sadece tasarımcının hayal g c  ile sınırlıdır.

 L  

KALINLIK: 0.5 mm - 3.00 mm arasında deĐişen kalınlıklarda  retilir.
PLAKA  L  LER : Standart  l   1219 mm x 2438 mm dir. İstenildiĐi takdirde 4000 mm uzunluĐa kadar  retilir.

KULLANIM  ST NL KLER :

• DiĐer kaplama malzemelerine g re oksidasyona daha dayanıklıdır.
• Solmaz, aşınmaz, matlaşmaz.
• G neŐ , neme tuza, asitlere ve k ntleŐ me k rilliliĐine karŐ ı dayanıklıdır.
• K rilmadan, tabaka, tabaka ayrılmadan 90 dereceye kadar b k lebilir.
• Sertlik derecesi 80 Rc  zerindedir. Kaplanan malzemenin  mr n   zartır.
• Hi  leke tutmaz, kolaylıkla temizlenir.
• Hijyeniktir, saĐlık kurumları i in benzersiz bir malzemedir.
• Uzun  mr rl  olduĐu i in yenileme maliyetlerini sıfıra indirir, ekonomiktir.

KULLANIM ALANLARI

İNŞAAT SEKT R NDE:

T m dekorasyon iŐ lerinde (duvar, tavan, kolon, asans r, kabin ve kap  kaplamalarında) kullanılır.

EV EŐ YALARI:

Mobilya imalatında, tuvalet ekipmanlarında, aydınlatma sektör nde kullanılır.

END Ő TR YEL ALANDA:

Medikal cihazlar, beyaz eŐ ya  retimi, laboratuvarlarda kullanılır.

REKLAM SEKT R NDE:

Her t rl  outdoor, indoor  alıŐ masında ve iŐ aret levhalarında kullanılır.

KALİTE VE UYGULAMA KOŐ ULLARI

Paslanmaz  elik malzemelerimiz 304 ve 316 kalite normlarında  retilmektedir. zellikle deniz suyu ve havuz suyu i eren uygulamalarda 316 kalite normundaki  r nler kullanılmaktadır. Erkan İt . Kullanıcının taŐ ma, saklama, uygulama, yapıĐı koŐ ullardan kaynaklanan kalite ve benzeri problemlerinden sorumlu tutulamaz. Talebiniz halinde K sgeB onaylı teknik laboratuvar analiz belgemiz tarafınıza teslim edilir.
M Ő ter  karteladaki paslanmaz  elik numunelerle tedarik edilen plakalar arasında oluŐ abilecek, paslanmaz  eliĐin doĐasından kaynaklanan hafif renk farklılıklarını peŐ inen kabul eder.

DECO STEEL

PASLANMAZ D KORASYON  ELİĐİ

DECOSTEEL DECORATIVE STAINLESS STEEL

DECOSTEEL is a decorative stainless steel, which inspires modern architects in their creative ideas. Addition to its durability DECOSTEEL with its pattern and colour varieties, becomes a material of primary importance for the aesthetic, qualified and safe solutions. The patterns can be specially designed with unique results. With these technical specifications, architects have the chance to create special designs with no boundaries.

TECHNICAL SPECIFICATIONS

QUALITIES:

JAPAN SUS 304 - 316 or requested standards.

PRODUCT RANGE:

MIRROR STAINLESS STEEL
MATT STAINLESS STEEL
MIRROR DESIGNED STAINLESS

COLOURS:

GOLD, SILVER, BRONS, COPPER, ROSE GOLD, DARK GREY, PURPLE, BROWN, BLACK, BRASS, DARK BLUE

FINISHING:

BRIGHT, MATTE, ETCHED, THREE DIRECTION

SPECIAL DESIGN:

There are different models, as plain and patterned, in our stock, however according to the project's demand special patterns can be designed and applied on the steel. These specially designed patterns can be applied on varied colours of range. The architect or the designer can perform limitless alternatives.

SIZE SPECS

THICKNESS: produced between 0.5 mm - 3.00 mm.

SHEET SIZE: Standard sizes are 1219 mm x 2438 mm. The max. length can be 4000 mm according to demand.

USAGE SUPERIORITIES

- In comparison to other plating materials it is more durable to oxidation.
- Colours don't fade, can't be corroded, does not lose it's luster.
- Durable to the effects of sun, humidity, saltiness, acidity and urban pollution factors.
- Can be bended to 90 degrees without breaking or splitting into layers.
- It's hardness is over 80 RC, will extend the life of your coated products.
- Hygienic, excellent material to be used in medical institutions.
- Long lasting, does not need renovations, economic.

USAGE FIELDS

CONSTRUCTION BUSINESS:

For all of decoration needs, (wall, ceiling, column, elevator cabinets and door coverings)

HOME FIXTURES:

Furniture production, toilet equipments, lighting sector.

INDUSTRIAL FIXTURES:

Medical equipnents, laboratories, household appliances.

ADVERTISING INDUSTRY:

Indoor and outdoor bilboards an signages.

QUALITY AND APPLIENCE CONDITION

Our stainless steel products are manufactured from grade 304 and 316 quality norms. However for sea and piscine appliance customer should use 316 grade products. Erkan İt . will not be responsible of the problems sourced by carrying, stocking and applying conditions of the customer. In case of inquiry technical analysis reports approved by K SgeB can be provided by Erkan İt .
Customer accepts beforehand slight color difference between samples and provided materials which may caused by the nature of stainless steel.
