

DECOTILE

Decotile paslanmaz çelik, farklı bir dekoratif malzemedir. İnşaat sektörüne "farklı bir yenilik" getirmiştir. Banyolarda, mutfaklarda, duvar, kolon, asansör kabin kaplamalarında "kaplama malzemesi" olarak kullanılmaktadır. Mevcut renkler dışında projeye özel renk kullanmak mümkündür. Dayanıklı prestijli görünümüyle dekorasyonda farklı çözüm arayan tüm tasarımcıların işini kolaylaştırmaktadır. Standart ölçüleri 67mmx400mm, 67mmx600mm olup projeye özel ölçüde üretilebilir. Işığın farklı noktalarda kırılması sonucu DECOTİLE bulunduğu mekana ışıkları yansıtan, ancak ayna olmayan farklı bir görünüm katar.

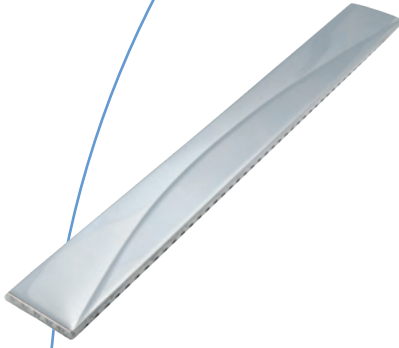

DECOTILE stainless steel is a unique decoration material. It has brought a "FRESH and NEW" approach to the design industry. It is a "Covering Material" used as a BORDURE in bathrooms, a BACKSPLASH in kitchens, or a wall, column and lift car PANEL. Besides the existing colours, special colour options can be provided for a project. Possessing a durable and prestigious look, DECOTILE facilitates for all designers' differing needs. The standard dimensions for DECOTILE are 67mmx400mm, 67mmx600mm special size can be made. Fractures of light on Decotile creates a welcoming effect on its environment.
